95% Incident Reduction ■ 232M+ Records Protected ■ \$2M+ Annual Savings ■ 4x Faster Resolution ■ \$10M+ ARR Supported

EXECUTIVE SUMMARY

Data governance leader with 15+ years in regulated financial services, enterprise data platforms, and technology control governance. Built and scaled a **Detect -> Resolve -> Prevent -> Govern -> Scale** operating model for 50+ clients, reducing control failures 95%, protecting 232M+ records per cycle, accelerating resolution 4x, and delivering \$2M+ annual savings. Known for translating governance standards into practical owner accountability, runbooks, evidence routines, and data quality controls across architecture, engineering, compliance, risk, and business teams.

"Metric driven and extraordinarily accountable" - Ken Bouley, Direct Manager, FICO Executive Leadership | **15 SPOT Awards** | **11 LinkedIn Recommendations**

CORE COMPETENCIES

GOVERNANCE: Data Technology Control Governance | Data Governance Frameworks | DAMA DMBOK | Technology Controls | Application / Information / Data Owner Models | Runbooks & Best Practices

LEADERSHIP: Cross-LOB Stakeholder Influence | Executive Forums | Issue Escalation & RCA | Audit-Ready Evidence | Team Leadership (25+ Engineers)

PLATFORMS & REGULATORY: Microsoft Purview | Collibra | ServiceNow | AWS | Python | SQL | CI/CD | Data Lineage | SOX | GDPR | DPDP | SOC 2 / ISO 27001

PROFESSIONAL EXPERIENCE

FAIR ISAAC CORPORATION (FICO)

Oct 2016 - Mar 2025

Enterprise Data Platform | Bengaluru, India (+ Teams in US & Canada)

Associate Director / Senior Manager

Jun 2022 - Mar 2025

- Owned enterprise-scale data technology control governance across metadata, quality, reliability, and AI-readiness for 50+ financial services clients; cut control-related incidents 95% in three months.
- Represented platform governance in executive and cross-LOB forums; clarified Application Owner, Information Owner, and Data Owner accountability while driving adoption of technology controls.
- Implemented metadata validation, anomaly detection, ServiceNow escalation, RCA evidence packs, and preventive quality contracts; reduced mean time to resolution 4x.
- Partnered with data architecture and engineering on ingestion design, lineage, and control integration; supported \$10M+ ARR, delivered \$2M+ annual savings, and reduced onboarding from 4 weeks to 2-3 days.
- Led 25+ engineers across India, US, and Canada; ran governance forums, defect reviews, and stewardship routines to surface and prevent control gaps.

Manager

Dec 2018 - Jun 2022

- Governed enterprise metadata and validation platforms (AWS Athena, Python), cutting pipeline incidents 50% in three months and enforcing quality checks at ingest.
- Scaled SLA-driven reconciliation, CI/CD quality gates, and change controls across 75 GB+ batch workloads and 2.5M-3M API calls per cycle; improved engineering velocity ~50%.

Lead / Associate Manager

Oct 2016 - Dec 2018

- Established PII protection, access-control, ingestion, and reconciliation foundations across 100+ data paths, later extended to protect 232M+ regulated records per cycle; contributed technical reviews and RFP inputs tied to \$5M new ARR.

HCL TECHNOLOGIES

Apr 2015 - Oct 2016

Technical Lead, Data Migration, Reconciliation & Enterprise Integration

- Designed Guidewire Insurance Suite migration frameworks and pipeline optimizations for BFSI clients, reducing delivery time ~32%, improving ingestion 40%, and improving query performance 30%.

EY (ERNST & YOUNG) | COGNIZANT | RR DONNELLEY

Jul 2009 - Mar 2015

Associate Tech Lead / Programmer Analyst / Software Engineer

- Delivered BFSI data migration, reconciliation, and technology control programs, progressing into cross-functional validation and delivery leadership responsibilities.

PROFESSIONAL DEVELOPMENT SABBATICAL

Apr 2025 - May 2026

- Advanced DAMA CDMP toward Master level; grew The Governed Data & AI Brief newsletter to 1,500+ subscribers. Concluded - immediately available.
- Stayed current with enterprise GenAI, RAG, and AI governance patterns, translating emerging capabilities into executive-ready guidance on metadata, lineage, access controls, data quality, model risk, and responsible AI adoption for regulated data platforms.

SELECTED INNOVATIONS

- Metadata-Driven Data Quality Framework (FICO):** Reduced resolution from 20-100 hrs to under 4 hrs and compressed client onboarding from 4 weeks to 2-3 days.
- Secure PII Masking & Zero-Trust Ingestion (FICO):** Protected 232M+ records at 10,000 TPS with classification, masking, tokenization, and audit logs.
- Pipeline Pulse / Platform Hub:** Built a live demo app plus governance runbooks, control templates, and 6 DAMA-aligned learning tracks.

CERTIFICATIONS

DAMA CDMP Practitioner - Fundamentals 88% | Governance 83% | Data Quality 88% | Master (in progress)

Additional: Scrum Master (2025) | SAFe | Guidewire Data Hub & InfoCenter | 15 SPOT Awards | 11 LinkedIn Recommendations

EDUCATION

Master of Computer Applications (M.C.A.)
KGISL Institute of Information Management

2005 - 2008

B.Sc., Mathematics & Statistics
University of Calicut

2002 - 2005
